Potential Partner Paths

- ETF/ETP issuer concept review
- Index administrator or calculation agent review
- Licensed market-data upgrade path
- Commercial API or research distribution
- White-label dashboard or index licensing discussion

Current Status

RPAI30 is currently an informational proprietary index. It is not an ETF, fund, advisory service, regulated benchmark, investment product, or investment advice. Product use requires separate legal, data, benchmark administration, and licensing review.

Component Coverage

|                         |        |
|-------------------------|--------|
| Cloud Platforms         | 16.67% |
| AI Semiconductors       | 13.33% |
| Semiconductor Equipment | 13.33% |
| Cybersecurity           | 6.67%  |
| EDA Software            | 6.67%  |
| Data Centers            | 6.67%  |
| Networking              | 6.67%  |
| Cloud Data Platforms    | 3.33%  |
